

A Rate You Can Count On.

ING Guarantee Choice Annuity
Single Premium Deferred Annuity

Receive competitive,

With the **ING Guarantee Choice Annuity**, you will receive a competitive interest rate that's guaranteed. You can even choose to receive higher interest rates in exchange for an increase in premiums. This interest automatically goes to work for you and your contract value.

Choose your guarantee period.

You can choose the length of time you'd like your annuity to receive a guaranteed competitive interest rate, up to 10 years. Want higher interest? Choose a longer surrender charge period. Want quicker access to payouts? Opt for a shorter surrender charge period. The choice is yours.

Enjoy the free withdrawal provision.¹

During the first contract year, you can withdraw interest without a surrender charge or market value adjustment. And, after the first year, you can withdraw up to 10% of your contract's accumulation value without a surrender charge or market value adjustment. That means you have the ability to access a portion of your money to use however you choose—pay for everyday living expenses or take a dream vacation!

Defer income taxes.

You won't pay taxes on the interest credited to your annuity until you make a withdrawal. Based on your personal circumstances, deferred withdrawals may mean a lower tax bracket when taxes are due. But perhaps the most beneficial aspect of deferring taxes is that your premiums and credited interest continue accumulating additional interest. The longer you are able to defer taking withdrawals or receiving annuity payments, the more potential your contract has to accumulate credited interest.

¹Withdrawals may be subject to Federal/State income tax and, if taken prior to age 59 1/2, an additional 10% Federal penalty tax.

If the contract is renewed within 30 days of the interest rate guarantee period expiration, the MVA will reset.

After the first contract year, the owner can withdraw up to 10% of the accumulation value each contract year without an MVA and surrender charge. If the total withdrawals in any contract year exceed the free amount, MVAs and surrender charges will apply to the total amount withdrawn in that contract year, including any prior free withdrawals in that contract year. Withdrawals may be subject to Federal/State income tax and, if taken prior to age 59 1/2, an additional 10% Federal penalty tax. Federal law requires that withdrawals be taken first from interest credited. All distributions from qualified annuities may be taxable.
